## PROFESSIONAL EXPERIENCE

**Tinos software and security solutions,**  
*php laravel developer intern*  
Nov 2021 – present | India

**Rimit payments, front end developer intern**  
Dec 2021 – Mar 2022 | India  
It is a product based startup and i worked in a live fintech project( payment application) using technologies like vue js, nuxt js, vueitify. My roles are testing apis using postman, showing and filtering right data in ui, state management.I got exeperinces in working otp verification, storing user data in local storage, how a user signup, upload documents for kyc verification so on.

**Shiash info solutions private limited,**  
*dot net developer intern*  
Sep 2021 – Oct 2021 | India  
Here i got training on asp dot net, windows forms, mssql server, ado dot net. I made two desktop applications such as assessment app and banking app using windows forms, mssql server, ado dot net and one web application( project management app) as part of my internship assignment. I understand how to connect to mssql database using ado dot net and some familiarity with Entity framework.

## EDUCATION

**College of engineering perumon,**  
*Btech( Eletronics and communication)*  
Aug 2017 – Aug 2021 | India  
cgpa is 7.0

**Stratford public school and junior college(CBSE),**  
*Higher secondary*  
May 2014 – Mar 2016 | India  
79%

**Believers church Mahatma Central School (CBSE), 10 th**  
India  
86%

## PROJECTS

**Java swing tic tac toe game**   
Mar 2022 – Mar 2022  
This is a desktop game application developed using java swing library, awt.In which used JFrame, Jpanel, Jbutton ui components are used.

**Java swing snake game**   
Mar 2022 – Mar 2022  
This is a desktop game application developed using java swing library, awt.

**Banking application using windows forms (Dot net),**  
<https://github.com/ronyjoseph007/banking-software-dotnet>

Sep 2021 – Sep 2021  
This is a windows form based desktop application, which have features like balance check, money deposit,transfer,withdraw,mini statement,password change and uses ado dot net for coonecting to mssql database and CRUD operations in mssql database

**COVID'19 detecting web app using chest X-Rays, convolutional neural network based project**   
Apr 2021 – May 2021

This project is a covid'19 detecting web app using python django web framework used at backend, the pretrained CNN network ( VGG16 ) model is deployed and trained using 5000 chest x-ray images. The tensorflow frame work is used to train and evaluate the model. Front end part of the web app is developed using, HTML,CSS, SASS, Bootstrap 4, Java script and jquery.

## SKILLS

**Dot net** ● ● ● ● ●  
ado dot net, c#, mssql, windows forms

**Java** ● ● ● ● ●

**web frameworks** ● ● ● ● ●  
django, laravel, nest js

**Data structures and algorithms** ● ● ● ● ●

**Databases** ● ● ● ● ●  
mysql, mssql, mongodb

**Front end technologies**  
Html, css, javascript, vue js, bootstrap, jquery, react
